

Centralized Reporting Quick Guide

The Centralized Reporting allows you to access your summative and interim test results. This Quick Guide contains the following sections:

- [How to Log In](#)
- [How to View Data from a Previous Point in Time](#)
- [How to Navigate Basic Reports](#)
- [How to Track Student Performance Over Time](#)
- [How to Generate and Export Individual Student Reports \(ISR\)](#)
- [How to Generate and Export Student Data Files](#)
- [How to Understand Different User Roles](#)

Note: For Hawaii, “district-level users” refer to HIDOE users who are in the TIDE system with the Complex user role. Please see the *TIDE User Guide* on the alohsahsap.org portal page for additional information about user roles.

How to Log In

1. Navigate to the HSAP portal at alohsahsap.org and select your assessment program.
2. Select your user role from the cards displayed (see [Figure 1](#)).

Figure 1. User Role Cards

3. Click the **Reporting Systems** card, then click the **Centralized Reporting** card (see [Figure 2](#)). The login page appears.

Figure 2. Centralized Reporting Card

Centralized Reporting Quick Guide

4. On the login page (see [Figure 3](#)), enter the email address and password you use to access all CAI systems.

Figure 3. Login Page

Please Log In

Enter your username and password to log into CAI online systems. Once you log in, you will automatically be directed to your selected system.

Need More Help?

If you forgot your password or need a new password, please use the [Forgot Your Password](#) link to reset it.

For assistance, contact the Help Desk at 1-866-648-3712 | hsachel@desti@camblumassessment.com

The dashboard for your user role appears.

How to View Data from a Previous Point in Time

Changing the reporting time period allows you to view test results from a previous point in time. There are two time period settings: you can select a school year for which to view tests, and you can enter a date for which to view students.

- When you set a school year for which to view tests, the reports show data for test opportunities completed *in the selected school year*.
- When you set a date for which to view students, the reports show data only for the students who were associated with you *as of the selected date*. Students' enrollment and demographic information is all given as of the selected date as well. You can use this setting to view data for students who have left or recently entered your classes (rosters), school, or district. You can even view students who have left your state.

If you don't change the reporting time period, or if you reset it to the default, all the reports show test opportunities only for the current school year (except Longitudinal Reports and Student Portfolio Reports, which always retain the ability to look back to previous years), with current student data.

Some examples of how you can use this feature:

- You may want to view the past performance of your current students, including new transfer students. In that case, set a school year in the past and keep the date set to today.
- You may want to view the performance of your former students in order to compare them with that of your current students. In that case, set the date to a time when your former students belonged to you and had started testing, and set the school year to the same time. Then switch back to the present to compare.

Centralized Reporting Quick Guide

1. From the **My Settings** menu in the banner, choose **Change Reporting Time Period** (see [Figure 6](#)). The **Change Reporting Time Period** window appears (see [Figure 7](#)).

Figure 6. Teacher View: Detail of Banner with Expanded My Settings Menu

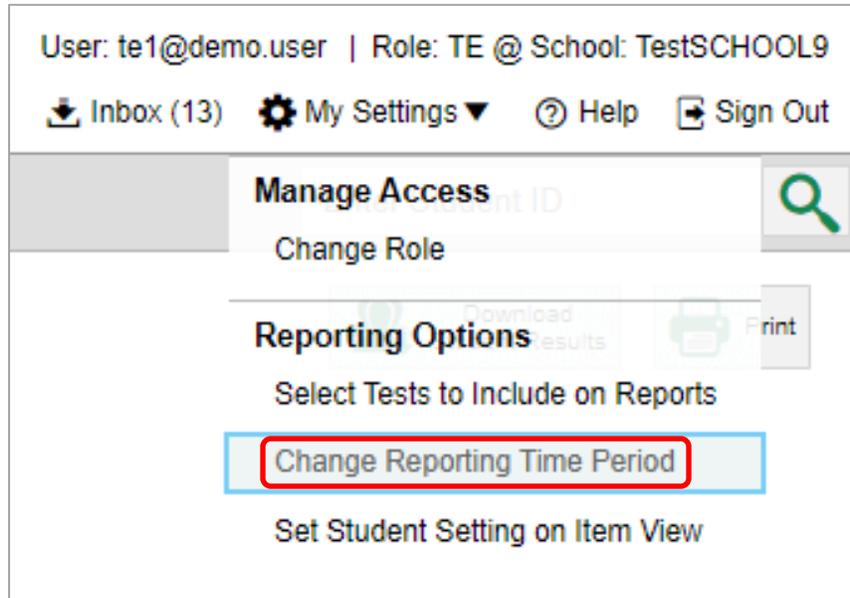

Figure 7. Change Reporting Time Period Window

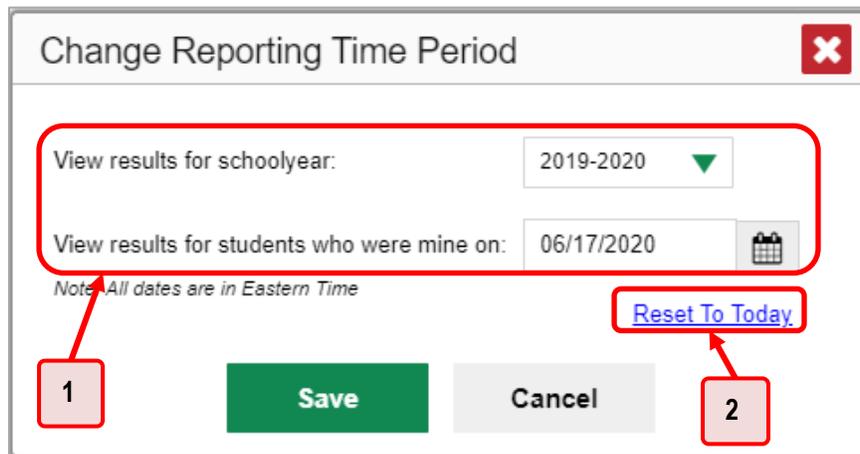

Table 1. Change Reporting Time Period Window Elements

#	Element
1	School year and student date selectors
2	Reset To Today

2. From the school year drop-down list, select a school year (see [Figure 7](#)). This is the year for which you will view test results.

Centralized Reporting Quick Guide

3. In the *View results for students who were mine on* field, use the calendar tool to select a date, or enter it in the format mm/dd/yyyy. You will be viewing all the students who were associated with you on that date, and only those students.
 - To view your current students' past performance, keep the date set to today.
 - To view the performance of your former students, set the date to a day when those students were associated with you and had started testing.
4. Click **Save**. All reports are now filtered to show only data for the selected school year and date. All other filters are cleared.

Optional: To go back to viewing the latest data, open the **Change Reporting Time Period** window again, click **Reset To Today** in the lower-right corner, then click **Save**. The date resets and all filters are cleared. The reporting time period also resets when you log out, but persists when you switch roles.

How to Navigate Basic Reports

When you log in to the Centralized Reporting System, the first thing you see is the dashboard where you can view overall test results for some or all of your test groups. From there, you can navigate to a report listing individual tests.

How to Use the Dashboard to View Aggregate Test Results

All users see the standard dashboard. It displays an aggregation card for each test group. A typical test group comprises a single test type, a single subject, and all grades (for example, the third card shown in [Figure 8](#) is for Summative ELA).

Each aggregation card displays the test group name, a list of grades included, the number of students who took tests in the group, the date of the test last taken, and a performance distribution bar displaying both percentages and student counts below it. You may sometimes see the message “Data cannot be aggregated together for this group of tests” instead of the performance distribution bar for tests that do not report performance distribution, or that use different sets of performance levels. Test group cards are sorted by date last taken.

Clicking the **i** button beside the performance distribution bar displays a legend with more information about performance levels.

Note: many images in this quick guide that show examples of the Centralized Reporting will include numbered red boxes that focus on a particular part of the image. A key explaining the numbering shown in an image is included in the table directly below that image.

For example, the table directly below [Figure 8](#) explains that the portion of the image labeled as “1” shows the test group aggregation card.

The table will be present for any figures that include numbered sections.

Centralized Reporting Quick Guide

Figure 8. Teacher View: Dashboard

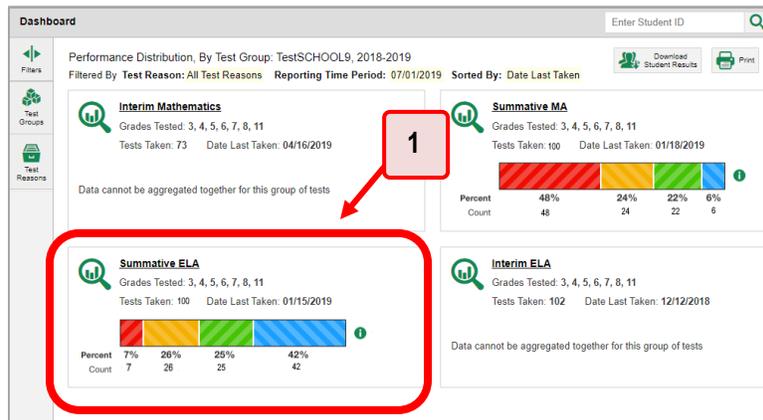

Table 2. Teacher View: Dashboard

#	Element
1	Test group aggregation card

You can change the test groups and test reasons that appear using the **Filters** panel on the left. [Figure 8](#) above shows a dashboard filtered to display all test groups.

If a message appears saying “There are no assessments to display”, there may be no assessments taken in your current reporting time period, or you may have filtered out all data.

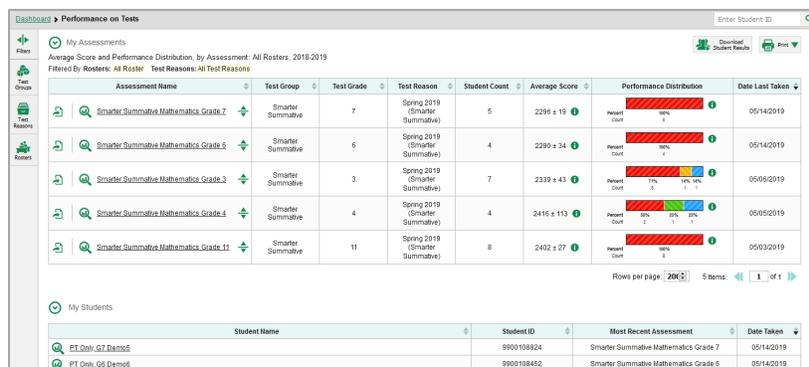

How to View More Detailed Data on a Particular Test Group

To view more detailed data for a particular test group, click the name of the group (or beside it). The Performance on Tests report appears. It is filtered to display only the test group you selected.

In the Performance on Tests report, teachers see two tables, as in [Figure 9](#):

- The My Assessments table, listing all the assessments in the filtered test group or groups.
- The My Students table, listing all your students who took the assessments.

Figure 9. Teacher View: Performance on Tests Report

District- and school-level users see just one table, as in [Figure 10](#). Like the first table on the teacher Performance on Tests report, this table lists all the assessments in the test group.

Centralized Reporting Quick Guide

Figure 10. School-Level User View: Performance on Tests Report

Assessment Name	Test Group	Test Grade	Test Reason	Student Count	Average Score	Performance Distribution	Date Last Taken
Grade 11 Math	Smarter Summative	11	Spring 2021 (Smarter Summative)	11	2400 ± 40	Percent Count: 100%	03/15/2021
Grade 3 Math	Smarter Summative	3	Spring 2021 (Smarter Summative)	3	2259 ± 90	Percent Count: 100%	03/15/2021
Grade 8 Math	Smarter Summative	8	Spring 2021 (Smarter Summative)	3	2245 ± 66	Percent Count: 100%	03/12/2021
Grade 5 Math	Smarter Summative	6	Spring 2021 (Smarter Summative)	3	2249 ± 48	Percent Count: 100%	02/18/2021
Grade 7 Math	Smarter Summative	7	Spring 2021 (Smarter Summative)	1	2393	Percent Count: 100%	01/12/2021
Grade 5 Math	Smarter Summative	5	Spring 2021 (Smarter Summative)	0	n/a	n/a	01/12/2021
Grade 4 Math	Smarter Summative	4	Spring 2021 (Smarter Summative)	0	n/a	n/a	01/12/2021

For each test, the assessments table (see [Figure 11](#)) shows the test group, grade, test reason (the name of the test window of a summative assessment, or a category assigned to an interim assessment), number of students who took the test, average score, performance distribution, and date the test was last taken.

Figure 11. Teacher View: Performance on Tests Report

Assessment Name	Test Group	Test Grade	Test Reason	Student Count	Average Score	Performance Distribution	Date Last Taken
Smarter Summative Mathematics Grade 7	Smarter Summative	7	Spring 2019 (Smarter Summative)	5	2295 ± 19	Percent Count: 100%	05/14/2019
Smarter Summative Mathematics Grade 8	Smarter Summative	6	Spring 2019 (Smarter Summative)	4	2290 ± 34	Percent Count: 100%	05/14/2019
Smarter Summative Mathematics Grade 3	Smarter Summative	3	Spring 2019 (Smarter Summative)	7	2339 ± 43	Percent Count: 100%	05/06/2019
Smarter Summative Mathematics Grade 4	Smarter Summative	4	Spring 2019 (Smarter Summative)	4	2415 ± 113	Percent Count: 100%	05/05/2019
Smarter Summative Mathematics Grade 11	Smarter Summative	11	Spring 2019 (Smarter Summative)	8	2402 ± 27	Percent Count: 100%	05/03/2019

Table 3. Teacher View: Performance on Test Report Elements

#	Element
1	Test reasons (either test windows or categories)
2	Number of students who took each test for each test reason
3	Date of most recent opportunity for each test for each test reason

You can use the filters to view a different set of assessments.

If a message appears saying “There are no assessments to display” or “There are no students to display”, there may be no assessments taken in your current reporting time period, or you may have filtered out all data.

How to Access Test Results for All Your Classes (Rosters)

The **Performance by Roster** tab ([Figure 12](#)) displays test results for each class (roster). To view this tab, follow the instructions for your user role below.

Centralized Reporting Quick Guide

Teachers and school-level users:

1. Starting from the dashboard that appears when you log in, click a test group name (or  beside it) as shown in [Figure 8](#).
2. Click a test name (or  beside it) in the table of assessments, as shown in [Figure 9](#). Either the My Students' Performance on Test or the School Performance on Test report appears, depending on your role. It is open to the **Performance by Roster** tab.

District-level users can view all classes (rosters) in a school. To do so, follow these instructions:

1. From the dashboard that appears when you log in, click a test group name (or  beside it) as shown in [Figure 8](#).
2. Click a test name (or  beside it) in the table of assessments, as shown in [Figure 10](#). A page of district test results appears, listing schools within the district.
3. Click a school name (or  beside it). The School Performance on Test report appears, open to the **Performance by Roster** tab.

The report shown in [Figure 12](#) displays a list of your classes (rosters) and each class's performance. The first few rows also show aggregate performance data for your state, complex area, complex, school, and total students.

Figure 12. My Students' Performance on Test Report: Performance by Roster Tab

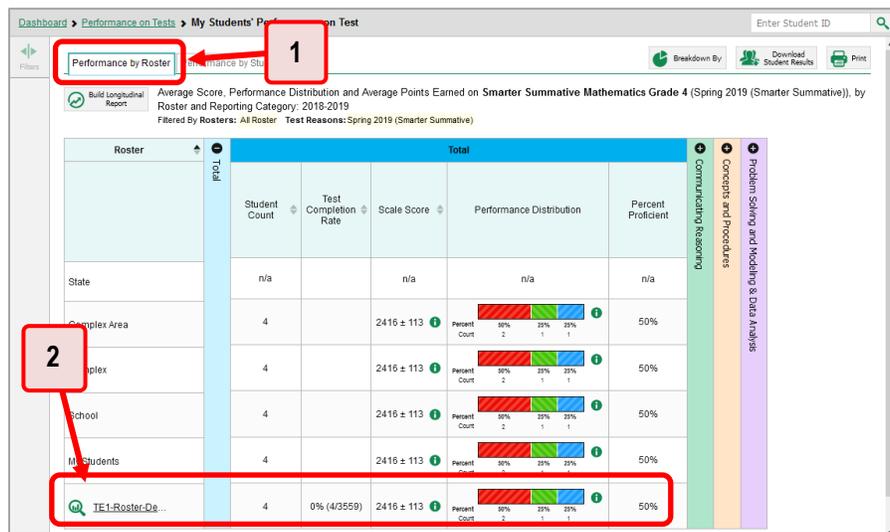

Table 4. My Students' Performance on Test Report: Performance by Roster Tab Elements

#	Element
1	Performance by Roster tab
2	Performance data for a class (roster)

How to Access Test Results for an Individual Student on a Particular Test

Teachers and school-level users:

1. From the dashboard that appears when you log in, click a test group name (or  beside it) as shown in [Figure 8](#).
2. Click a test name (or  beside it) in the table of assessments, as shown in [Figure 9](#). A page of test results appears.
3. Select the **Performance by Student** tab.
4. Click the name of an individual student (or  beside it) in the report. The Student Performance on Test report appears (see [Figure 13](#)).

District-level users:

1. From the dashboard that appears when you log in, click a test group name (or  beside it) as shown in [Figure 8](#).
2. Click a test name (or  beside it) in the table of assessments, as shown in [Figure 10](#). A page of test results by school appears.
3. Click a school name (or  beside it). The School Performance on Test report appears.
4. Perform the same steps as teachers and school-level users, starting at step [3](#).

Figure 13. Teacher View: Student Performance on Test Report

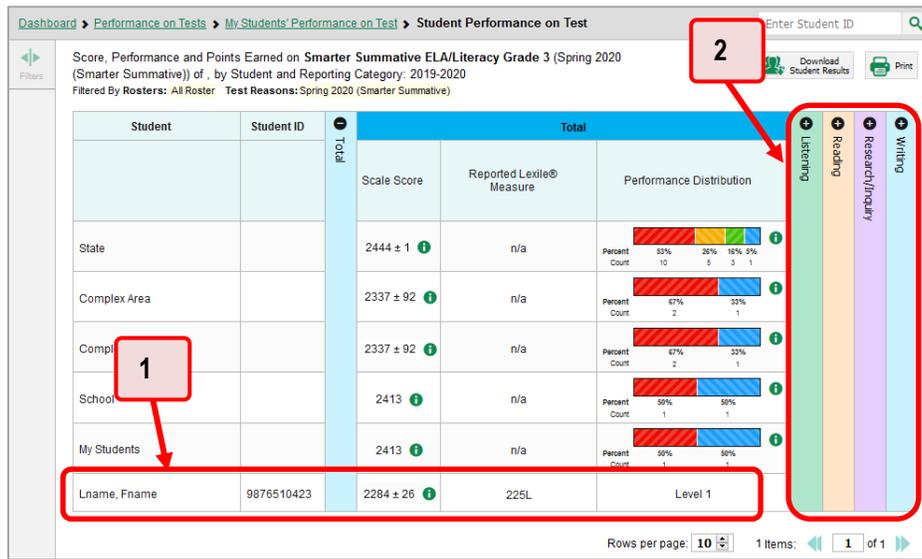

Table 5. Teacher View: Student Performance on Test Report Elements

#	Element
1	Row of data for the student
2	Reporting category section bars (click to expand)

You can view the student’s performance in each area of the test using the reporting category sections, which you can click to expand (see [Figure 13](#)).

How to Track Student Performance Over Time

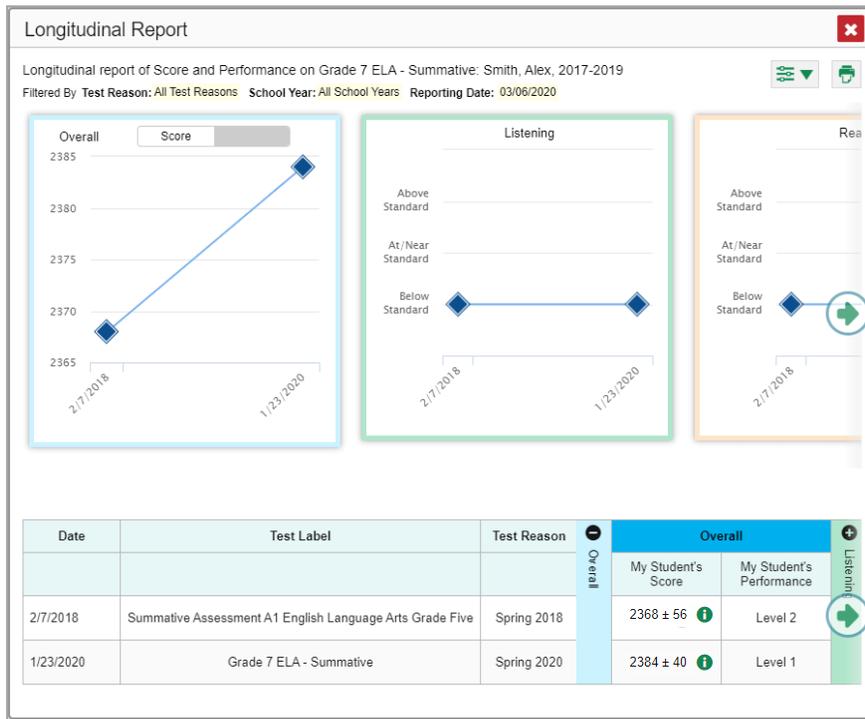

You can view your students’ performance over time across multiple related assessments or across multiple test opportunities of a single assessment. This lets you see how students’ performance has improved or declined.

Each Longitudinal Report displays performance data for one of the following:

- A group of students who have completed every assessment available in the report. If you are a district- or school-level user, note that a certain percentage of students must have taken *all* the related assessments in order for you to generate a Longitudinal Report. Teachers have the option of adjusting the pool of students, tests, and test reasons.
- An individual student (see [Figure 14](#)).

Centralized Reporting Quick Guide

Figure 14. Longitudinal Report Window: Summative Report for a Single Student with Multiple Reporting Categories

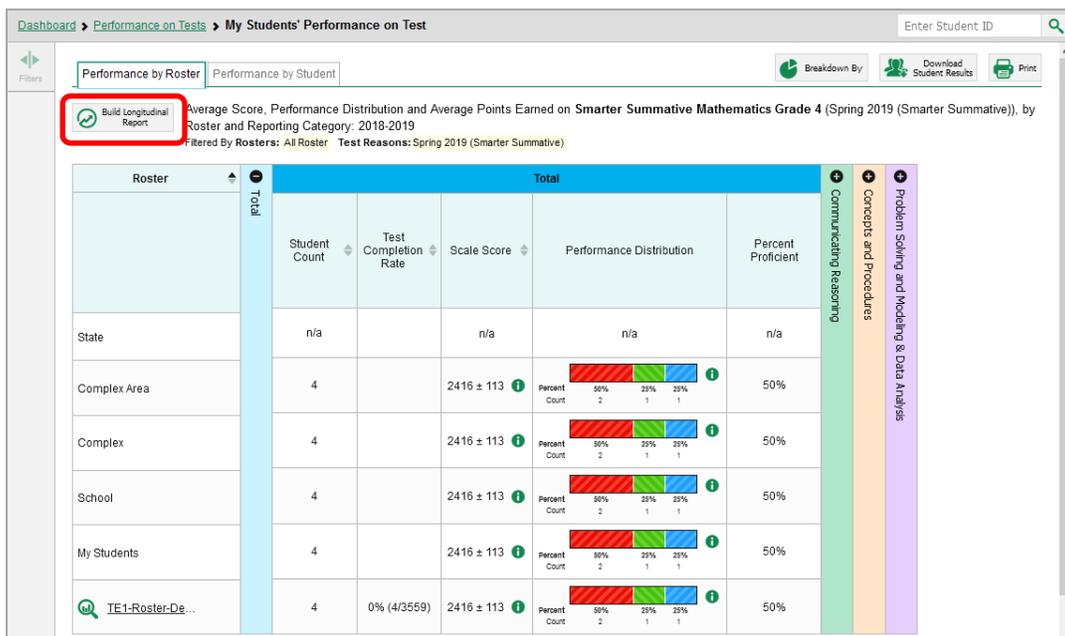

How to Access a Longitudinal Report Comparing Related Assessments

If the student(s) in your test results have completed multiple related assessments, the **Build Longitudinal Reports** button  allows you to access a Longitudinal Report in the reports for any of those assessments. If they haven't done so, then no Longitudinal Report is available.

- Above a table of test results, click the **Build Longitudinal Reports** button  in the upper-left corner, either directly on the page (see [Figure 15](#)) or within a **More Tools** menu, depending on whether additional instructional resources are available.

Figure 15. My Students' Performance on Test Report: Performance by Roster Tab

The **Longitudinal Report** window appears. Depending on your role, the test types, and the number of students in the report, it may display a report options page rather than the Longitudinal Report itself. The contents of this page depend on your role and the number of students.

- **Teachers only:** If the test results you're looking at are for multiple students, a table appears with a column for each test (see [Figure 17](#)). This table does not appear if you're looking at an individual student.
 - A sub-column appears for each test reason (a category of test, or, for a summative, a test window).
 - The cells in the columns display checkmarks  to indicate which students completed which test/test reason combinations.

Figure 16. Teacher View: Longitudinal Report Window: Detailed Report Options Page

Longitudinal Report
✕

Generate Report

Mark the checkboxes for the tests you wish to compare, and then click Generate Report. The Longitudinal Report will only show data for students who completed every test you chose to include (the students highlighted in the table below).

Students Selected: 4

Test	Grade 3 Math	Grade 4 Math
<input checked="" type="checkbox"/> Test Reason	<input checked="" type="checkbox"/> 2019-2020 Year	<input checked="" type="checkbox"/> Posttest
Bartley, O'Connors (9910050...)	✓	✓
Doe, John (991005263)	✓	✓
Delage, Suzanne (991006826)	✓	
Doe, Jane (120230013)	✓	✓
Student, Demo (998100170)	✓	✓

- Mark the checkbox for each test/test reason combination you wish to include in the report. Mark the **Test Reason** checkbox on the left to include all, or clear it to remove all. The test opportunities that will be included are highlighted in yellow.
- If you're viewing report options, click **Generate Report** at the top of the window to view the Longitudinal Report. (You can modify your selections and regenerate the report later using the **Change Selections** button .)

How to Generate and Export Individual Student Reports (ISR)

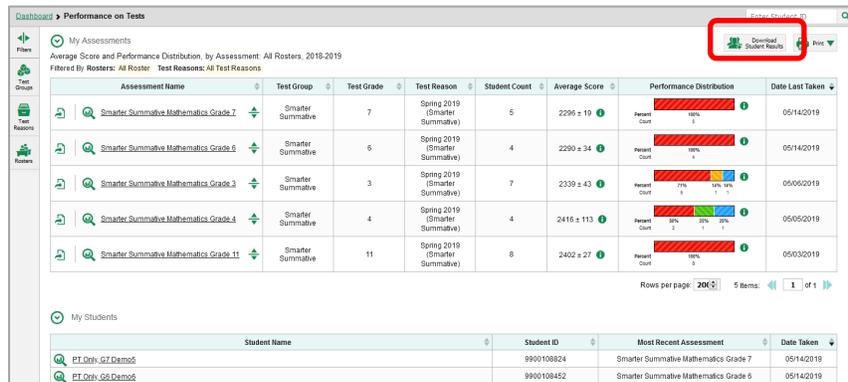

To generate and export an Individual Student Report (ISR) for a test opportunity (an instance of a student taking a test), use the Student Results Generator. Each ISR shows a student’s overall performance on their test plus a breakdown of performance by reporting category. You can select any combination of test reasons, assessments, and students in order to generate either a single ISR or multiple ISRs at once.

You may want to use the Student Results Generator to simultaneously print large numbers of ISRs.

ISRs can be generated from almost any Centralized Reporting page.

1. Click the **Download Student Results** button  in the upper-right corner of the page (see [Figure 18](#)).

Figure 17. Teacher View: Performance on Tests Report

The **Student Results Generator** window opens ([Figure 19](#)).

Depending what page you open the Student Results Generator from, the options available to you may be prepopulated or preselected. (The filters applied to the page have no effect, however.) You can change the selections.

Centralized Reporting Quick Guide

2. Starting at the left, click the section bars to expand the sections or use the **Next** and **Previous** buttons to navigate them. Within each section you must make selections: first test reasons, then assessments, then students.
 - a. In the **Select Test Reasons** section (Figure 19), mark the checkbox for each test reason you want to include in the report, or mark **All Test Reasons**. Test reasons are either test windows or categories for tests.

Figure 18. Student Results Generator Window: Select Test Reasons Section

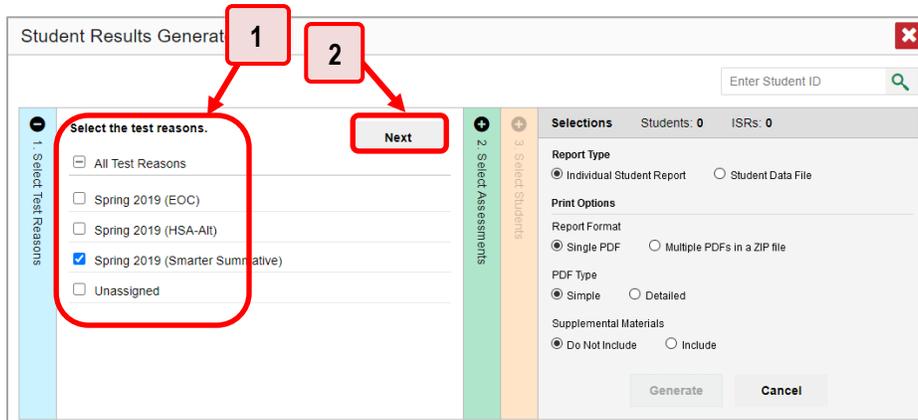

Table 6. Student Results Generator Window: Select Test Reasons Section Elements

#	Element
1	List of test reasons (test windows or categories), some of which are selected
2	Button to proceed to next section (Select Assessments)

- b. The **Select Assessments** section (Figure 20) groups tests by subject and grade. Mark the checkboxes beside the tests or groups of tests you want to include in the report, or mark **All Subjects**.

Figure 19. Student Results Generator Window: Select Assessments Section

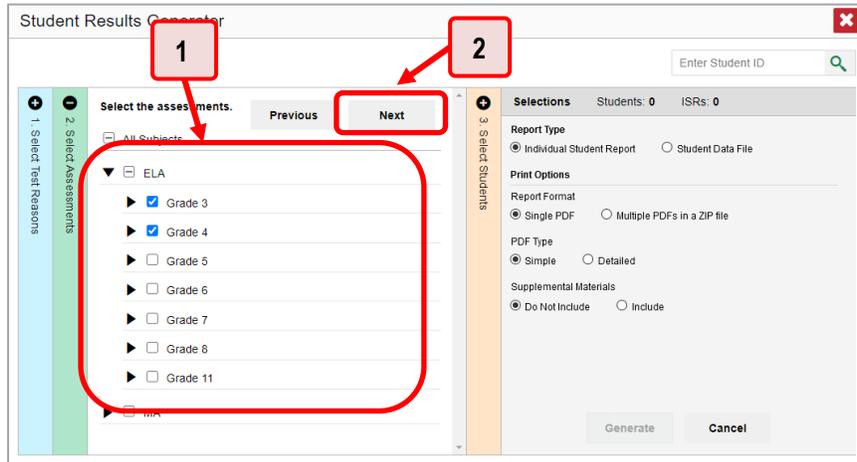

Table 7. Student Results Generator Window: Select Assessments Elements

#	Element
1	List of subjects, grades, and tests, one test of which is selected
2	Button to proceed to next section (Select Students)

Centralized Reporting Quick Guide

- c. The **Select Students** section (Figure 21) contains a list of classes (rosters) (if you're a teacher or school-level user) or schools (if you're a district-level user). Mark the checkboxes for the schools, classes, and/or individual students you want to include in the ISRs.
 - Sometimes the list of students is truncated. You can display the entire list by clicking **Click to Load More**.
 - Marking the checkbox for a student in one class (roster) or school also marks it anywhere else the student appears, and the same goes for clearing the checkbox.
 - To search for a particular student, enter their student ID in the field at the upper-right corner of the window and click . The student and all their assessments and test reasons are selected, and all your previous selections are cleared.

Figure 20. Teacher View: Student Results Generator Window: Select Students Section

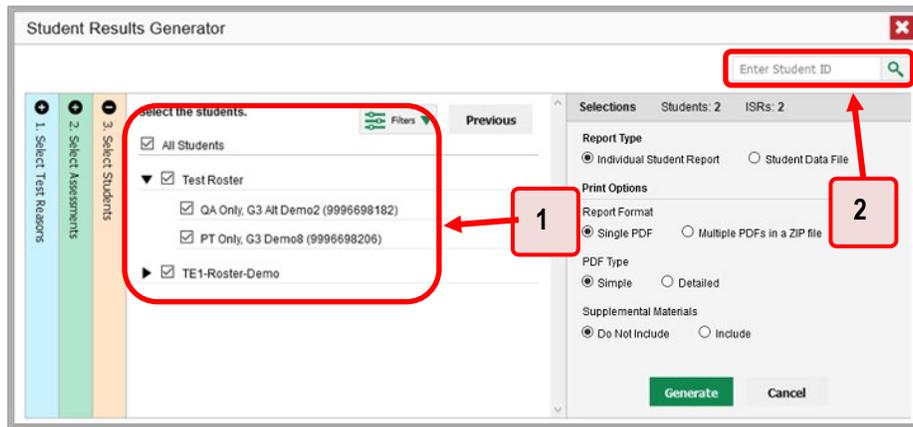

Table 8. Student Results Generator Window: Select Assessments Elements

#	Element
1	List of classes (rosters) and students (all selected)
2	Search field for student ID

The *Selections* section displays a count indicating the total number of students for whom ISRs will be generated.

- d. *Optional*: To set a range of processing dates for which to generate results, use the filter menu as follows:
 - i. Open the **Filters** menu . The menu displays two date fields, as in Figure 22.
 - ii. Use the calendar tools to select dates, or enter them in the format mm/dd/yyyy.
 - iii. Click **Apply**. The results are filtered to include only test opportunities processed by Centralized Reporting in that date range. Note that processing date is not always the same as the date a test was taken.

Centralized Reporting Quick Guide

- iv. *Optional:* To revert to including results for all available dates, reopen the filter menu, click **Clear Filters**, then click **Apply**.

Figure 21. School-Level User View: Student Results Generator Window: Select Students Section with Filter Menu Open

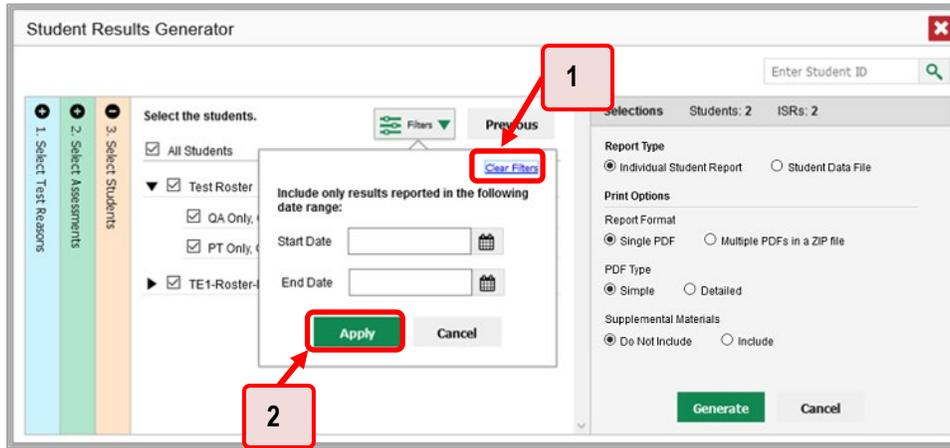

Table 9. School-Level User View: Student Results Generator Window: Select Students Section Elements

#	Element
1	Clear Filters
2	Apply button

- 3. From the two Report Type options in the panel on the right, select the option for ISRs. The *Selections* section shows the number of ISRs to be generated, and more options appear below (see [Figure 23](#)).

Figure 22. School-Level User View: Student Results Generator Window: Select Students Section

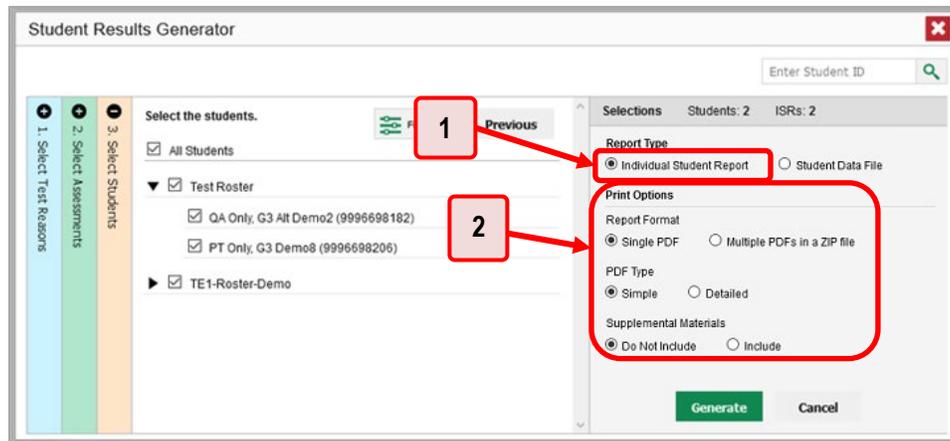

Table 10. School-Level User View: Student Results Generator Window: Select Students Section Elements

Centralized Reporting Quick Guide

#	Element
1	Individual Student Report option (selected)
2	Options for your ISR files

- If you're generating multiple ISRs, then under Report Format, choose either a single PDF for all the ISRs, or a ZIP file containing a separate PDF for each one. If you select **Single PDF**, the Student Results Generator may nonetheless create a ZIP file of multiple PDFs depending on the number of schools, grades, and opportunities included.
- Under PDF Type, select either a simple or a detailed PDF.
- Under Supplemental Materials, select whether to Include or Do Not Include these materials. Supplemental materials typically consist of an interpretive guide for the ISR being downloaded.
- Click **Generate**. Once ISR generation is finished, the Inbox contains the new ISR(s) available for download.

Note that if a student took a Smarter Balanced or NGSS Interim Assessment multiple times with different test reasons, an ISR will be generated for each test opportunity. If a student took a test multiple times with the same test reason, only one test opportunity will be included. You can create an ISR for an older test opportunity by navigating directly to the report for that opportunity. Older test opportunities are marked with numbers **1** in reports, starting with the earliest.

How to Generate and Export Student Data Files

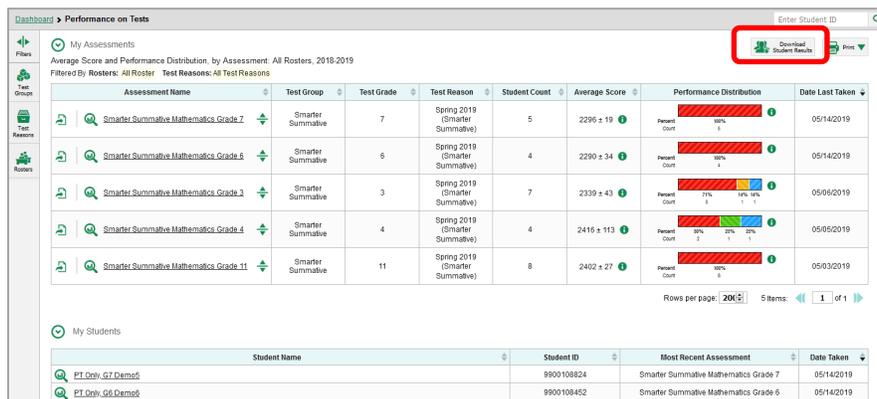

This section discusses student data files, which are useful for analysis.

To generate and export a student data file for a student, use the Student Results Generator. You can select any combination of test reasons, assessments, and students in order to generate and export the files.

You can generate student data files from almost any report page.

- Click the **Download Student Results** button  in the upper-right corner of the page.

Figure 23. Teacher View: Performance on Tests Report

Assessment Name	Test Group	Test Grade	Test Reason	Student Count	Average Score	Performance Distribution	Date Last Taken
Smarter Summative Mathematics Grade 2	Smarter Summative	7	Spring 2019 (Smarter Summative)	5	2296 ± 19	100% 0% 0% 0% 0% 1	05/14/2019

2	Apply button

Centralized Reporting Quick Guide

- From the two Report Type options in the panel on the right (see [Figure 29](#)), select **Student Data File**. More options appear below.

Figure 28. Teacher View: Student Results Generator Window: Select Students Section

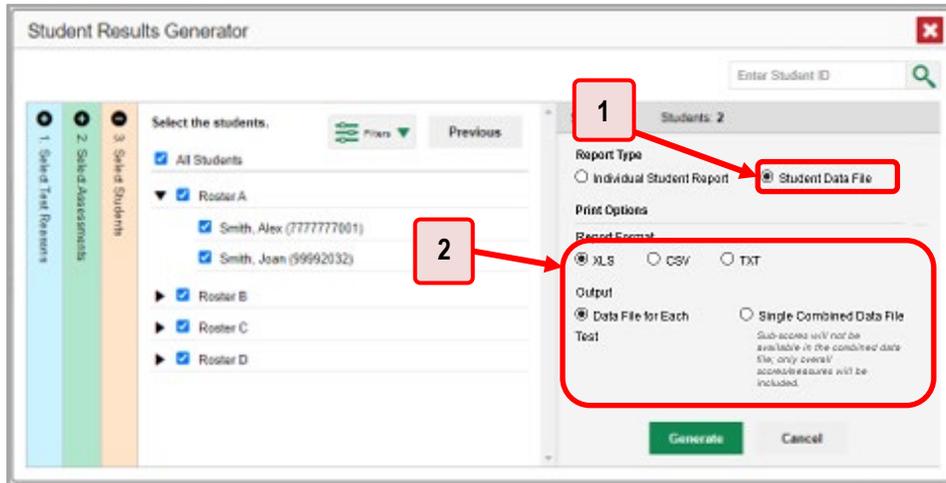

Table 15. Teacher View: Student Results Generator Window: Select Students Section Elements

#	Element
1	Student Data File option (selected)
2	Report Format and Output sections

- Under Report Format, select **XLS** (Excel .xlsx), **CSV** (comma-separated values), or **TXT** (tab-delimited text).
- Under Output, select either **Data File for Each Test** or **Single Combined Data File**. Note that a single combined file does not include reporting categories. Large files may be split by school.
- Click **Generate**. Once data file generation is finished, the Inbox contains the new student data file(s) available for download.

Note that if a student took a Smarter Balanced or NGSS Interim Assessment multiple times, the files will include each test opportunity.

How to Understand Different User Roles

Teachers, school-level users, and district-level users have access to different features and data in the Centralized Reporting System.

How to Understand Which Students Appear in Your Reports

- Teachers can view data for all students in their classes (rosters) who have completed assessments. They can also view data for students to whom they have administered assessments in the current school year.
- School-level users can view data for all students in their schools who have completed assessments.
- District-level users can view data for all students in their districts who have completed assessments.

How to Understand Which Features You Have Access To

- Teachers:
 - You can view the My Students' Performance on Test report, listing results for all your students who took a particular test.
 - You can filter by class (roster).
 - You can easily navigate directly from the Performance on Tests report to the Student Portfolio Report, which lists the various tests a particular student has taken.
 - When generating a Longitudinal Report to track the performance of multiple students over time, you can select the test opportunities to include in the report.
 - When generating Individual Student Reports (ISR) or student data files, you will see the available students grouped by class (roster).
 - You can compare any students' performance with the performance of your total associated students, school, complex, complex area, and state.
 - You can set persistent preferences for which tests to display. These preferences can be used by school- and district-level users to narrow down the class (roster) groupings in their reports.
- School-level users:
 - You can view the School Performance on Test report, listing results for all your school's students who took a particular test.
 - You can filter by class (roster) after first selecting the teacher the class belongs to.
 - When generating Individual Student Reports (ISR) or student data files, you will see the available students grouped by class (roster).
 - You can compare any students' performance with the performance of your whole school, complex, complex area, and state.

Centralized Reporting Quick Guide

- You can narrow down the class (roster) groupings in your reports whenever teachers have set persistent preferences for tests to display.
- District-level users:
 - You can view the District Performance on Test report, listing results for all your district's schools whose students took a particular test.
 - You can filter by school.
 - You can view the School Performance on Test report just like a school-level user.
 - When generating Individual Student Reports (ISR) or student data files, you will see available students grouped by school.
 - You can compare any students' performance with the performance of your whole complex, complex area, and state.
 - You can narrow down the class (roster) groupings in your reports whenever teachers have set persistent preferences for tests to display.
- Users with scoring permissions for Smarter Balanced Interim Assessments:
 - You can score unscored items and modify scores for certain items.

Change Log

This Change Log can be used to identify specific changes that are made to any of the information included in the original document throughout the current school year.

Location	Change	Date
How to Generate and Export Individual Student Reports (ISR)	Added new step 6 with the option of including supplemental materials.	3/16/21
How to Generate and Export Individual Student Reports (ISR)	Clarified information in step 7 about which test opportunity is used to generate an ISR for a student who has taken multiple opportunities of the same test.	3/16/21
How to Generate and Export Student Data Files	Added step 6 with the option of creating a combined data file.	3/16/21
Throughout	Updated screenshots to show the new Standard Error of Measurement calculation for student scale scores.	3/16/21
