

STATE OF HAWAII
DEPARTMENT OF EDUCATION

P.O. BOX 2360
HONOLULU, HAWAII 96804

August, 2015

Dear Parent, Guardian or Caregiver:

During each year, the Hawaii Department of Education (Department) administers the Hawaii State Alternate Assessments (HSA-Alt) to measure the academic achievement of students with the most significant cognitive disabilities. Alternate Achievement Standards are used to indicate the performance that is expected of students when they take these assessments and the complexity of the expectation is appropriate based on their significant cognitive disabilities. These assessments are developed in accordance with the Individuals with Disabilities Education Act (IDEA) for those students who cannot be assessed accurately using the general assessment, even with appropriate accommodations.

Your child will take the standards-based HSA-Alt in Reading and Mathematics if he or she is in grade 3 through 8 or 11. The 2015-2016 HSA-Alt testing window for Reading and Mathematics begins on February 19, 2016 and closes on May 26, 2016. Your child will also take the HSA-Alt in Science if he or she is in grade 4, 8 or 11. The 2015-2016 HSA-Alt testing window for Science begins on April 6, 2016 and ends on May 26, 2016. Students in grades 5, 9, and 12 will participate in a Science Field Test to evaluate new test questions. The HSA-Alt Science Field Test testing window opens on August 31, 2015 and closes on October 2, 2015.

Your child's teacher will administer the assessments to him or her, individually. Your child will be able to respond in his or her most appropriate modality (oral, signed language, picture system, or augmentative communication device). The time required to administer the assessments will be approximately one hour per content area. However, each assessment does not need to be completed in a single session. Your child may be given breaks when they are needed. Additionally, your child will use appropriate accommodations that have been recommended by the Individualized Education Plan (IEP) team members so that he or she can successfully demonstrate what has been learned.

The *Elementary and Secondary Education Act*, as reauthorized by the *No Child Left Behind Act of 2001* (NCLB), requires states to establish challenging standards, develop aligned assessments, and build accountability systems based upon educational results. All students are included in a state's system of standards, assessments, and accountability.

The Department strongly encourages all parents to have their children participate in the HSA-Alt so that we can better identify their academic strengths and needs.

If you have any questions, please contact the school at (808) _____.

Thank you for your cooperation.

Sincerely,

Principal
